

BRIDGE+

Are you searching for a communicative and innovative shelter that gives you a lot of space as well?

BRIDGE+ is the right choice for you! Its two open sides guarantee you that your products will be clearly seen from your customers on both sides.

Waterproof Polyester 600D - 215 GSM

Dacron
170 GSM

TPU 0,3 mm

AIR+ Inflatable Gazebos use a special hermetic technology which creates a pneumatic inflatable. This means that, once inflated, the product will keep the air inside for days or even weeks.

You can finally say goodbye to annoying and noisy blowers and power supplies needed to keep the old PVC inflatables standing!
